

Gomer Newsflash

Gomer Comrades,

As you know the Gomers have always been a close fraternity and as such we endeavor to keep everyone informed when a brother is in need of your prayers and support.

Our previous Association president and current Board of Directors member, Dula Dulaney had brain surgery approximately 3 weeks ago. That surgery went very well and he's basically Code 1 as far as his physical state goes. Not surprisingly, in discussions with him about the news to follow, he shows no fear.

The news is that the pathology reports came back this week and the news is not as encouraging; a diagnosis of Grade 4 Malignant Glioblastoma Brain Cancer. Dula will start treatments next week and start the battle, "Fights-ON, Fights-ON". We know that he is strong in his faith and his will. His positive outlook will prevail so that he and Pat can fulfill the plans they have for the upcoming years.

Please keep Dula and Pat close during this upcoming challenge.
